"Autologic's results speak for themselves"

Saving time and money with Autologic

Having taken his Jaguar to a main dealer with a high emission problem, Phil Utting was shocked to hear that repairs would cost £2,700.

Luckily, Phil had seen "Autologic for Jaguar" advertised in a leading Jaguar magazine. He called the enquiries line and spoke to Ben Farmer, Autologic's Jaguar Technical Support Manager. Ben was confident that Autologic could solve the problem for far less and passed Phil's details on to his local Autologic user, Andy of CAM Engineering in Kent. Andy remembers the job, "The fault wasn't obvious, but through the Autologic helpline I could discuss the problem with Ben whilst working on the vehicle, and eventually we found it".

So, problem solved, and for only £200. Understandably Phil was pleased, "My car drives perfectly and I saved £2,500! The fault wasn't even connected with the £2,700 of work I was quoted for". Phil was really impressed with the service he received, "Andy is the most honest guy I've met in over 20 years of dealing with garages and Autologic's results speak for themselves".

Additional software

New dealer-level software for Mercedes-Benz, BMW, Land Rover, Volvo, VAG and Porsche vehicles has been designed to run on the same platform as Autologic® for Jaguar, offering multi-marque specialists complete servicing capability.
